to present a webinar featuring...*

After Release of Early Psychosis Intervention (EPI) Program Standards for Ontario: What's Next?

EENet invites members to join a **FREE** one-hour virtual knowledge exchange session via telephone and webinar about the new EPI Standards.

While the release of the Standards provides an opportunity, it is challenging to make them accessible and useful for system improvement. In this webinar, members of a Standards Implementation Steering Committee will describe work to date related to the Standards. The Committee is led by EPION (a provincial stakeholder group), and includes the Ministry and LHINs. CAMH provides technical support.

The webinar will focus on:

- Evidence about early psychosis intervention
- Nature and purpose of the EPI standards
- Results of a provincial survey of EPI programs
- How results are being used and next steps

There will be an opportunity for questions and discussion. Please join us for this special interactive session!

Date: Tuesday, January 29th, 2013

Time: 10am – 11am EST

To register for the webinar, click below:

For further information about the webinar, please contact:
Angela Yip at angela.yip@camh.ca or (416) 535-8501, ext. 36046

Featured Panelists:

Karen O'Connor is the Director of Community Support and Engagement at the Canadian Mental Health Association (CMHA), Toronto. Karen is also the co-chair of the Toronto and Ontario Early Psychosis Intervention Network and was part of the MOHLTC Early Psychosis Standards advisory group.

Gordon Langill is the Manager of the Lynx EPI program, in Four Counties near Peterborough, Ontario. He has been active in Early Psychosis Intervention since 2000, and was a member of the MOHLTC EPI Standards Advisory group.

Janet Durbin is a Scientist with the Health Systems and Health Equity Group in the Social and Epidemiological Research Department, at the Centre for Addiction and Mental Health. She is also an Assistant Professor with the Departments of Psychiatry and Public Health Sciences at the University of Toronto.

About Evidence Exchange Network

EENet actively promotes the use of evidence in decision-making by providing an infrastructure to connect research to mental health and addictions research stakeholders across Ontario, develops targeted KT products and tools and supports interactive exchanges. The EENet Management and Resource Centre is located in the Provincial System Support Program at CAMH. To join the network, visit www.eenet.ca
