

You are invited to

A Story-Gathering Session

with CAWI and the CLiP* project www.clip-lcp.org

Theme: Collaborative, Equitable and Inclusive Leadership in Practice

Thursday November 24, 2016

2:00pm to 4:00 pm

Where: Boardroom, **Somerset West Community Health Centre**
55 Eccles St, Ottawa, ON K1R 6S3

*Collaborative Leadership in Practice (CLiP) is a two-year bilingual project to strengthen collaborative, equitable and inclusive leadership in the non-profit sector - specifically in the context of partnerships and networks. City for All Women Initiative (CAWI-IVTF) is a key contributing partner to the CLiP project. On November 24, CAWI is inviting their partners (organizations and community leaders) to participate in a story-gathering session that will document practice-based experiences and knowledge about collaborative, equitable and inclusive leadership. Your stories and knowledge shared will reach a province-wide audience through the CLiP project.

What to expect at the Story-Gathering Session...

- ✓ We will explore: What does it mean to bring an equity lens to our partnership efforts? What have we done differently (even in small ways) to center the experiences and decision-making of equity seeking groups within our partnerships?
- ✓ We will document: stories, images and words that reflect an anti-oppression/equity approach to partnership work.
- ✓ We will co-create: a paper quilt, sign-holding selfies (option for those not wanting a selfie: take a picture of the written message on its own).
- ✓ A bit like a focus group - but more collaborative and creative!

Note: Honoraria are available and childcare and transportation costs can be compensated for any person participating in a non-staff capacity.

Registration is required.
