

# Family Caregiver Community of Interest Webinar Series:

Promising and established practices for family  
caregiver engagement

February 28 2017 at 12-1PM EST

## Breaking Barriers: Family Navigation Program

Learn about the ground breaking family support model within the mental health services at St. Joseph's Health Centre and gain insight about the adaptability of the model system wide.

The Family Navigation Program is a partnership between CMHA Toronto, Family Outreach and Response Program and St. Joseph's Health Centre. It assists families in communicating with mental health clinicians during a loved one's hospitalization while also offering one-to-one and group support. FOR's definition of family is inclusive of any friend or relative identifying as supporting someone in emotional distress.

This webinar will be of interest to service providers, family caregivers, family caregiver organizations, and organizational leadership.

**Presenters:** Justean Lebel, Family Mental Health Recovery Navigator,  
CMHA Toronto - Family Outreach and Response Program

Elly Litvak, Family Mental Health Navigation Coordinator,  
CMHA Toronto - Family Outreach and Response Program
