

WELCOME TO OCEAN LEGACY'S PLASTIC POLLUTION EMERGENCY RESPONSE FACILITY!

Join us for an insightful behind-the-scenes look at how we process and repurpose marine debris into high-performance materials. This guided tour will provide an in-depth understanding of our innovative solutions to combat plastic pollution while ensuring a safe and informative experience for all visitors.

PERSONAL PROTECTIVE EQUIPMENT (PPE) REQUIREMENTS

 Safety Vest – High-visibility vest must be worn at all times.

We have high vis on site to accommodate smaller groups.

 Closed-Toe Shoes – Steel-toed boots are recommended; sturdy closed-toe footwear is mandatory.

 Hearing Protection – Earplugs or earmuffs may be required in high-noise areas. If you don't have your own, we can provide some on site!

 Face Mask – Optional but recommended in dusty environments.

ADDITIONAL SAFETY GUIDELINES

- ✓ All visitors must complete a safety briefing upon arrival.
- ✓ Stay within designated tour areas and follow guide instructions.
- ✓ No loose clothing or dangling accessories for safety reasons.
- ✓ Phones and cameras may only be used in approved areas.
- ✓ Visitors under 18 must be accompanied by an adult.

We look forward to welcoming you to our facility!
